-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1616

Claims 1-109 are pending.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-29, drawn to 19-nor vitamin D compounds and composition of the formula in claim 1, classified in class 552, subclass 653.
 - II. Claim 30-34, drawn to intermediate compounds.
 - III. Claim 35, drawn to an intermediate compound.
 - IV. Claims 36-51, drawn to a method of treating metabolic bone disease.
 - V. Claims 52-62, drawn to a method of treating psoriasis.
 - VI. Claims 63-72, drawn to a method of treating leukemia.
 - VII. Claims 73-84, drawn to a method of increasing the strength of a bone.
 - VIII. Claims 85-97, drawn to a method of treating an autoimmune disease.
 - IX. Claims 98-109, drawn to a method of treating an inflammatory bowel disease.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Groups I and (IV to IX) are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product.
3. Inventions of Groups II-III and I, IV to IX are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different

Art Unit: 1616

modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01).

In the instant case the different inventions.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II-III and other Groups, restriction for examination purposes as indicated is proper. It would be a burden on the Examiner to search all the invention as presently claimed.

5. Examiner will join the method of use claims, when compounds of the same scope will be allowed.

6. A telephone call was made to Attorney Thomas Wozny on 1/12/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sabiha Qazi whose telephone number is (571) 272-0622. The examiner can normally be reached on any business day.

Art Unit: 1616

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Kunz can be reached on (571) 272-0887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
